FOR IMMEDIATE RELEASE

CONCEPT CONSTRUCTION CORP. BREAKS GROUND AT 1091 MAIN STREET ON MIXED USE ELLICOTT DEVELOPMENT PROJECT

May 16, 2018 – Buffalo, NY. - Ellicott Development has hired Concept Construction Corp. as Construction Manager to oversee the new, 6 story, 167,000 square foot, mixed use facility. The New building will offer a variety of retail and office space and include one level of underground parking for 50 vehicles. Plenty of additional parking is available at the rear of the property. The design offers a modern exterior with a range of materials selected to complement the existing structure. In addition, the building will internally connect with the former Our Lady of the Lourdes Church by way of a 2-story winter garden walkway. The historic church will also undergo an adaptive restoration in conjunction with the development of 1091 Main offering a vibrant mix of retail, restaurant, commercial office and residential spaces. Situated in the heart of the City, this exciting development project will provide convenient access to and from downtown Buffalo, the Buffalo Niagara Medical Campus, Allentown and neighboring Elmwood Village. Work has already begun at the site where heavy equipment can be seen preparing the location for the new, \$20M mixed use building which will be connected to the former church. Construction is expected to be complete in 12 months.
